# EPICOR

Vital Technical Sdn. Bhd

V-tech®

STELLAR DYNAMIC
Beyond Forward Thinking

"Sales Performance and reporting are easy to view in one glance. Inventory availability is traceable now with proper dashboards and trackers in place. This helps us a lot in forecasting and planning for sales activities."

Mr. Cheong Chee Leong, Director | Vital Technical Sdn. Bhd.

Company Facts

Overview

- Location—Selangor, Malaysia
- Industry—Chemical Material Manufacturing
- Website— vitaltechnical.com

Success Highlights

Challenges

- To maximize production output and quality in a cost-effective way
- To ensure products remain internationally competitive
- To automate to address variances between operational results vs financial reports

Solution: Epicor ERP (now known as Kinetic), part of the Epicor for Manufacturing solution set

Benefits

- Stock movement and status traceability
- Improved delivery tracking through the implementation of the mobile app.
- Production efficiency improvements through automation and real-time data visibility
- Shortened shipping and billing cycle moving to an automated process from a manual process
